Chrysanthemums

Rooted Divisions

FRANCIS J. WARNOCK

P. O. Box 447

Ysleta, Texas

We have been growing commercial chrysanthemums for the past 10 years, shipping them to all parts of the United States. During this time we have tried and discarded many varieties so that our list represents what we believe to be the best all-round selection for commercial culture.

You will note these are hardy well rooted divisions and NOT cuttings. They are grown out of doors in a mild dry western climate and free of disease.

SUBSTITUTIONS: Unless order is marked 'no substitutions,' we will take the liberty to substitute other varieties which we consider just as good should we be short on certain varieties which are scarce this year.

PRICES: \$ 3.00 per hundred.
27.50 per thousand.

Fifty divisions of a variety is the minimum that we can accept.
